Virginia firm receives \$3.7 million contract award

by Francis L. Crumb, Information Directorate

ROME, N.Y. — The Air Force Research Laboratory Information Directorate has awarded a \$3,784,530 contract to SI International Inc. of Reston, Va.

Under terms of the three-year agreement, “Complex Adaptive Signals and Systems,” the company will provide scientific, engineering and administrative services to the directorate’s Multi-Sensor Exploitation Branch. The branch’s mission is to conduct research and development in the collection, processing and dissemination of information intelligence.

“SI International researchers will conduct analysis using

complex algorithms in the development of technology to enhance the capabilities of the intelligence community,” said Andrew R. Williams, program manager in the directorate’s Information and Intelligence Exploitation Division. “The increasing complexity of computer network and electronic signals requires novel approaches to support the collection and processing of intelligence information.”

Research Associates of Syracuse, Inc., will provide expertise in detection of electronic intelligence signals as a subcontractor on the program. @
